

Job Title: JAVA/JEE Application Developer
Req #: T-00029

COMPANY PROFILE

NikSoft Systems Corporation is a recognized Information Technology solutions provider. Founded in 1998 and based in Reston, Virginia, NikSoft is a CMMI Level 3 Certified company with an established reputation for excellence and on-time delivery with a consistently high customer satisfaction rating from its Federal Government and private consulting contracts.

JOB DESCRIPTION

NikSoft is searching for a full-time **JAVA/JEE Application Developer** to join our fast growing team of Information Technology professionals supporting the Department of Homeland Security's Customs & Border Protection (CBP) program, in Alexandria, VA. NikSoft is searching for a JAVA/JEE Application Developer to join our fast growing team of Information Technology professionals supporting our Federal clients. The candidate will design and implement JEE software applications in WebSphere Application Server\WebLogic\JBoss or any other related JEE server. The candidate will use modern software engineering tools including Eclipse, Rational Application Developer (RAD), JDeveloper, NetBeans, HP Quality Center and JIRA for design, development, and testing the software. The candidate will also work with users in an agile development approach to understand requirements, then elicit feedback and refine solution through demonstrations. The candidate will present the solution at formal and informal design reviews, and document the design according to the Government's system lifecycle methodology.

POSITION REQUIREMENTS and EXPERIENCE:

- 5-7 years of Java JEE required
- Bachelor's Degree in Computer Science or Engineering
- 2+ years of WebLogic based environment is preferred
- Developing 100% automating unit tests
- Using the Eclipse and Rational Application Developer (RAD) IDEs.
- Agile development approach.
- Good communication skills (writing and presenting)
- Strong initiative: must be able to take a high-level requirement
- Ability to work in a high-pressured, tight-deadline environment
- Superior written and oral communication skills are essential
- Must be able to multitask efficiently and progressively and work comfortably in an ever-changing data environment

- Must work well in a team environment as well as independently
- Excellent verbal/written communication and problem solving skills; ability to communicate information to a variety of groups at different technical skill level
- Experience working with users to define requirements and demonstrate solutions
- Experience designing and delivering complex, highly-scalable software components
- **CITIZENSHIP STATUS:** US Citizenship is required.
- **CLEARANCE:** Must pass CBP BI. Must have a DoD Secret or be eligible to obtain one.
