

Job Title: Java Developer – Backend with EDI
Level: Midlevel
T-00112

COMPANY PROFILE:

NikSoft Systems Corporation is a recognized Information Technology solutions provider. Founded in 1998 and based in Reston, Virginia, NikSoft is a CMMI Level 3 Certified company with an established reputation for excellence and on-time delivery with a consistently high customer satisfaction rating from its Federal Government and private consulting contracts.

JOB DESCRIPTION:

NikSoft is seeking a full-time **Java Developer – Backend w/EDI** to join our fast growing team of Information Technology professionals supporting our Federal clients in Alexandria, VA

The ideal candidate will participate in the system architecture design, systems engineering, development, integration testing and validation, and all aspects of the software life-cycle (requirements to design to implementation to test) for a browser based application implemented using Java and backend web services.

RESPONSIBILITIES:

- Develop and test Java code as dictated by project requirement and working with/mentoring junior team members.
- Support the Lead Architect in the execution of the project including tasking, ensuring that milestones are achieved, working with team members, and supporting meeting briefings.

MINIMUM REQUIREMENTS:

- 4+ years of Java J2EE/JEE design and development experience
- Demonstrated expertise with Java, Java Frameworks (Spring, iBatis etc.), Object-Oriented Design and development principles, and Java Application Servers such as WebLogic or WebSphere, and relational databases such as Oracle or DB2
- Knowledge of design patterns (GoF, J2EE)
- Demonstrated expertise in software engineering practices (e.g., reading/generating software specs, design patterns, continuous integration)
- First-hand experience working with large project teams (working with the Federal Government a strong plus)
- Demonstrated ability to think critically and creatively to develop innovative solutions to software problems
- Experience with Oracle SOA Suite is a plus

- Demonstrated leadership of large-scale software engineering projects a strong plus
- Service Oriented Architecture design and development experience a plus
- Agile development experience a plus
- Drools experience is a plus
- Code (preferably Java but will accept any language) and writing samples may be requested

EDUCATION:

- BS Degree in Computer Science or Engineering

CITIZENSHIP

- US Citizenship required per contract requirements.
- Ability to obtain a Secret of TS Clearance if required.

BENEFITS:

- NikSoft's competitive benefits program includes comprehensive medical and dental care, 401K, paid time off, flexible spending accounts, disability coverage, and other benefits that help provide financial protection for you and your family.

NikSoft is an Affirmative Action/Equal Opportunity Employer and supports diversity in the workplace. Applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, disability, veteran status, marital status, or sexual orientation.
